

APPLICATION REQUIREMENTS

When submitting your application, please include your approved **development permit** from the County, in addition to the supporting documentation listed below in red. Failing to do so may result in delays to issuing your building permit. As per the *New Home Buyers Protection Act*, when constructing a new home, cabin, garage with living quarters, or moving into a new manufactured home, you must provide the *New Home Warranty Certificate* at the time of application.

Effective December 1, 2017, new requirements are in effect for residential builders in Alberta. All residential builders are required to have a builder licence in order to construct new homes. The National Energy Code came into effect November 1, 2016. Please ensure the attached 9.36 compliance report is completed and submitted with the building permit application and required documentation.
