

## APPLICATION REQUIREMENTS

Along with your approved Development Permit from the County, ensure the listed supporting documentation is included with the completed Building Permit Application or delays may occur with regards to issuing your Building Permit. As per the *New Home Buyers Protection Act*, when constructing a new home, cabin, garage with living quarters, or moving into a new manufactured home, you must provide the New Home Warranty Certificate at the time of application.

Effective December 1, 2017, new requirements are in effect for residential builders in Alberta. All residential builders are required to have a Builder License in order to construct new homes. The National Energy Code came into effect November 1, 2016. Please ensure the attached 9.36 Compliance Report is completed and submitted with the Building Permit Application and required documentation.
