Cancel: Policy 432 – Flooding Prevention Incentive  
Resolution #: 454-19

CAO Signature: 

---

**Purpose:** Lac Ste. Anne County would like to provide incentive to control problem beavers on private land.

**Guidelines:** Lac Ste. Anne County is prepared to pay \$40.00 per beaver tail subject to the following conditions:

1. The landowner must first notify the County of the problem with beavers giving a legal description of the property and the description of the flooded area, i.e. hay land, cultivated land or pasture.
2. Landowners and authorized persons must sign an affidavit that the beavers were destroyed within Lac Ste. Anne County and that these animals were causing flooding of agricultural land.
3. The total amount paid out by the County on this program is limited to the amount provided in the approved budget of same year.
4. The Agricultural Services Manager may establish limits on the amount payable to a landowner or authorized person.
5. Beaver tails will be collected upon appointment with our Animal Control Officer. Arrangements can be made for collection by contacting the Lac Ste. Anne County office.
6. Beaver tails less than three (3) inches in length are not acceptable for payment.
